WE GET THE BIG PICTURE...

Customized audio and visual solutions designed to enhance your experience.

...BEAUTIFUL SOUND.
FOR YOU TO CONTROL.

Whether your room is new or existing, we can provide the a/v solutions you're looking for.

- Video conferencing
- Plasma and LCD displays
- Digital signage
- LCD/DLP projectors and projection screens
- Sound and acoustic equipment
- Interactive digital whiteboards
- Control systems for room automation and signal routing

AV Solutions: Innovative design... powerful technology and performance

No detail is too small: our system engineers incorporate every aspect—practical and aesthetic. We carry the best names in a/v equipment and can specify the product that best suits your needs. Furthermore, we collaborate with the manufacturers to maximize performance and function. We offer a beginning-to-end solution and have the ability to bring all aspects of the job together, fully exceeding your objectives.

Making your vision a reality

AV Solutions designed and installed the custom-built lectern for University of Rochester Surgical Skills Lab.

From the beginning, AV Solutions was involved in the design of the multi-media theater at the New York Wine and Culinary Center.

Our focus

AV Solutions is an audio-visual design and installation company. Our experienced staff is factory trained to diagnose and repair a range of a/v equipment from basic overhead projectors to very sophisticated, integrated systems. We are audio engineers, programmers, and project managers who will bring you the best solution for your presentation needs.

Where we shine

We specialize in consultation, design, installation, programming, and servicing of simple to complex a/v systems. We can work directly with the owner and/or in partnership with an architect or contractor.

Our portfolio of projects include corporate boardrooms, training facilities, educational classrooms, houses of worship, as well as performance, medical, and various community meeting spaces.

Our extended service

AV Solutions offers maintenance contracts for your existing systems as well as extended service contracts to lengthen warranty and repair coverage for your equipment. Our services also include ongoing equipment and software training.

PAETEC Park – Rochester

Often our work can not be seen, but it sure can be heard. We install powerful, outdoor, weather-resistant sound systems as well as performance sound systems for indoor venues.

AV Solutions: The sound professionals

Monroe Community College
Stanley Theater
Moog Inc.
Ciminelli Group
Trocaire College
Paychex
M&T Bank

During our past 30 years in business, the AV Solutions team has matured, but we've never really grown up. We're a close-knit group that gets to play around every day with the latest gadgets, the newest technological toys, and the coolest systems. The fun really begins when we have an opportunity to help our clients use this equipment to create a presentation system that enhances their environment.

While we might still be kids at heart, the industry has grown and so have we. AV Solutions has evolved from a small projector sales division with one office, into a highly-sophisticated a/v systems integration company with four offices across New York State and clients that stretch coast to coast.

Our expertise lies in identifying key needs and desires and delivering solutions. We do this by helping clients sift through a myriad of products to achieve desired results.
